VALUE • SERVICE • SELECTION

Our Family

As a family-owned company, Supreme Spa & Pool embraces traditional values, & places our customers first. We shop the world and bring the best products to our customers. We provide the best selection of swimming pools, equipment, water treatment products, spas, saunas, gaming and leisure-related products.

When we moved to Lincoln from Kearney NE in 1999, Rob Hobelman had a vision. He wanted to provide the best customer service, quality brand names, service and selection of swimming pools, spas and other recreational products. Supreme Spa & Pool was founded in 2006 by Rob Hobelman. The original location was not far from their

current location. After only three years in business, Supreme Spa & Pool was recognized as one of the fastest growing companies in the recreation industry in Nebraska. The success of Supreme Spa & Pool has come through hard work, long hours and recruiting the best and most experienced personnel in Nebraska and other states. In January of 2015,

Supreme Spa and Pool relocated to their current new state of the art facility in Lincoln Nebraska. This brand new location showcases Nebraska's best selection for in ground and above ground pools, hot tubs, patio furniture and hardscape options.

“ On behalf of my family, I would like to extend our sincerest thank you for choosing Supreme Spa & Pool. If there is anything I can do to improve your experience, please contact me directly at 402-328-0085 or email me at rob@SupremeSpaPool.com ”

Sincerely,

Rob Hobelman

Thank You!

REVIEW

This is our first summer with a pool. I am so impressed with the entire staff at Supreme Spa & Pool. They have made this experience so easy for us. Once we filled the pool, we took in a water sample and they tested it, and told us what chemicals to add. We go in regularly, and so far the kids have not missed a day in the pool because the chemicals were out of balance. Thanks for taking the intimidation out of having a pool. We love our pool and are so thankful for your knowledge and instruction. Because of you, we are making great family memories in the pool!!!

- Cindy Riley

For the family on a budget, above ground pools are an excellent choice. Available in sizes up to 33 feet in diameter, the latest above ground pools look great and last for years. At Supreme Spa & Pool, we research and shop all manufacturers each year to make sure we have the best product at the lowest price to offer our customers. Have questions about pool maintenance? We can help with that too! Our water professionals boost their knowledge annually by attending schools that focus on carefree water care at the best price.

Stealth Pools (Semi Inground)

Functional Backyard Style...

Yes, it is possible to have a quality in-ground pool without breaking your budget. With the "Supreme Spa & Pool Advantage," we can create a pool that works for you, without sacrificing strength or style. Maybe space is an issue for your backyard, yet an in-ground pool is your dream. Smaller patio pools can be functional and stylish.

REVIEW

We have worked with Supreme Spa & Pool for 12 years when purchasing our pool, installing it, and maintaining it. The staff is always knowledgeable and helpful. They are able to diagnose any issue we have with the water and make it right. We appreciate all that they do.

REVIEW

We have had a very positive experience building our pool with Supreme Spa & Pool. We are currently building an in-ground pool in our back yard, and our Salesman has been really helpful in the planning as well as in making adjustments as we build to fit our needs. Communication has been good throughout the process, and we look forward to the completion of our pool! We will definitely rely on Supreme for assistance in future upkeep and equipment for our pool.

Traditional Becomes Amazing!

Everything You Need

Energy efficiency is great for the environment..

Especially for your backyard environment

What if the technology behind your pool products would provide worry-free, low maintenance, crystal clear water that's just the right temperature, while saving energy and ultimately lowering your costs? Supreme Spa & Pool Energy Solutions line is without a doubt the technology for the job. Our products save energy, water, run quietly, and reduce operation costs and that helps protect our planet for future generations.

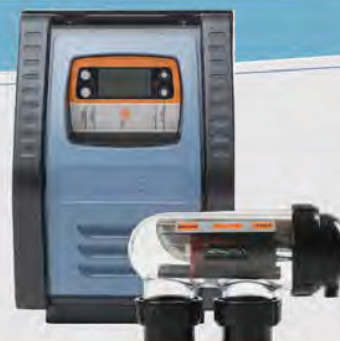

Variable Speed Pool Pump

Much quieter, vibrate less, run cooler, last longer, are digitally controlled, and have advanced diagnostics. Studies show that they are 90% more efficient than standard one-speed pumps. This typically equates to an operating cost of approximately \$20-\$30 per month.

Salt System

The feeling of silk-soft water on your skin becomes a sensation your whole body will notice immediately. You can have this experience through a technology called Salt Chlorination.

UV Sanitation

Offer an incomparable and safer pool experience for your family and friends... Silky, smooth, odorless and salt free. The water circulates through our UV sanitizer that uses the type C ultraviolet rays to completely purify water deactivating all the dangerous micro-organisms resulting in the cleanest and purest water possible for your pool.

Energy Efficiency Runs In The Family

Heat Pump

High-performance, energy efficient heat pumps quietly and economically maintain your ideal water temperature at all times. They even let you start your swim season earlier and end it later, all while consuming less energy than natural gas heaters and lowering your operating costs by up to 80 percent.

Cartridge Filter

Wish there was a way to clean your pool's filtration system without pouring gallons of water into the environment? No backwashing; instead, you just rinse the filter elements with your garden hose, saving you up to 2,500 gallons of water every season. Choose from a heavy-duty dirt-holding capacity for extra-long cleaning cycles; this can translate to up to an entire season without cleaning!

Automation

Automation is the beginning of the ultimate swimming experience providing previously unimaginable comfort. Automation allows you to automate not only your pool equipment, but your entire backyard. You can manage landscapes, pool and spa lighting, water features, fire pits and much more!

Robotic Cleaners

Save up to 94% on energy costs, our robotic pool cleaners use no more energy than a standard light bulb. Just throw one in, turn it on and enjoy a beautifully cleaned pool. It's that easy! This advanced portable cleaner brushes and scrubs while it vacuums reaching everywhere in your pool. It also features an easy to clean reinforced cartridge element.

Service After The Sale

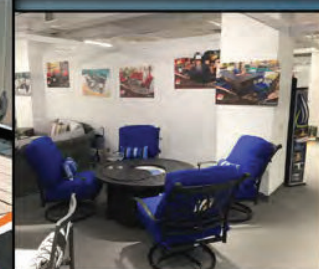

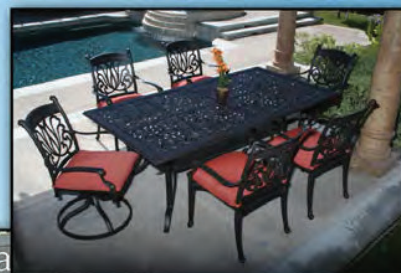

We Take Pride In Our Work...
